

# Mineral Exploration Field Services

**THE COMPLETE SOLUTION →  
PERSONNEL, VEHICLES, LOGISTICS, EQUIPMENT**

## COMPANY PROFILE

**Map to Mine is a mineral exploration services company, based in Townsville. We offer quality and personalised service for the exploration and mining industries. Our team of seasoned industry operatives can help you with many of your project requirements.** We aim to provide clients with the right personnel and the appropriate equipment to get the job done correctly each time. Our services begin when you first set foot on new ground and continue right through to your mining operations and beyond.

Map to Mine is a fully independent company wholly owned by its two principals:

**Dee Rodwell** • Over 20 years senior management experience in a multi-disciplinary environment centred on mineral exploration services.

**Mick Clarke** • Over 20 years field technical and managerial experience in the mineral exploration industry across Australia. Trade qualified mechanic with comprehensive logistics management skills.

Our depth of knowledge and complementary skills are augmented by many years experience working together in the mineral exploration services field. We have a core team of employees who work for us under contract and can call upon the assistance of many other contractors.

### What can Map to Mine offer?

Map to Mine can provide a comprehensive suite of services and equipment ranging from exploration project management through labour hire to equipment hire, remote area camp construction and specialist consulting services. What we can't provide for your project in-house we will seek to outsource, engaging the best professionals available.

### Our Values

Our business is built on the premise of offering our clients a broad range of services that best meet their needs. Underscoring this commitment is a comprehensive set of values. We:

- ▶ Put safety first in all of our activities;
- ▶ Conduct our business in a legal, moral and ethical manner at all times;
- ▶ Hold ourselves accountable to ensure that our commitments are fully met and client satisfaction is achieved;
- ▶ Promote a team-oriented environment where everyone has an opportunity to develop their skills and abilities;
- ▶ Are always considerate of colleagues, the environment and community.
